

# Choice Board Template

Place a different activity or option in each space based on their age and abilities, and let the individual choose by pointing to or selecting their choice. Examples for using a choice board include:

- What story is read before bedtime
- Which chore to do first
- Which snack to eat
- Which activity to do next
- Which homework assignment to do next

Use our template for a quick choice board and fill in manually. Or, you can easily make your own using Google Docs, Word docs, or Canva (to name just a few). You can add images to each box with a name and description.

I want	
 bubbles	 koosh ball
 music	 swing

**Choice Board Name:** \_\_\_\_\_
