

Have You Heard of Fragile X?

Hi, my name is:

I have a condition called Fragile X syndrome.
I need help. Could you please contact:

Fragile X Syndrome

It is an inherited condition affecting intellectual, behavioral and social development. It is also linked to autism.

- In unexpected situations, I can get anxious and confused
- It may be difficult for me to answer or follow instructions
- You may hear speech or see behaviors that are unusual
- I may be sensitive to touch or physical contact

For more information:

NATIONAL **FRAGILE X**
FOUNDATION
